### Community Group Evaluation

Our mission is to lead people into a growing relationship with Jesus Christ by creating predictable small group environments where participants experience authentic community (accountability, belonging, and care) and spiritual growth (intimacy with God, community with insiders, and influence with outsiders). In an effort to continually improve our small group environments, we'd like to hear about your most recent group experience.

Please answer all the following questions as openly and honestly as possible using the following scale:
